

Immatics Biotechnologies GmbH, based in Tuebingen and Martinsried (Munich), Germany, is an independent and highly innovative biopharmaceutical company. Based on its XPRESIDENT® technology for the identification of novel tumor-associated peptides, Immatics is actively developing novel cancer immunotherapies including Adoptive Cell Therapies, T-cell receptor and antibody Bispecifics as well as cancer vaccines. For additional information please visit [www.immatics.com](http://www.immatics.com).

We are currently seeking a

## **Scientist Single-Cell Analysis/ Microfluidics (f/m)**

to support our Immunology team in the development of new tools for T-cell receptor (TCR) identification and characterization. You will work in Tuebingen in an interdisciplinary environment with scientists from all R&D departments within Immatics. Your analytical reasoning and action-oriented style as well as your organizational skills will contribute to the team's success.

Your main responsibilities will include but are not limited to the following tasks:

- Set-up of a single-cell analysis method to advance our TCR identification process
- Design, support and analyze experiments
- Internal and external communication of results
- Optimize the single-cell analysis technology and implement in the current work-flow
- Write and review standard operating procedures
- Supervise and interact with project team members

### **Your profile:**

You hold a PhD degree in life sciences and have previous experience and expertise in single-cell analysis/ microfluidics and corresponding techniques/ tools. You have in-depth understanding of cell biology and immunology, ideally in the context of T-cell immunology and immuno-oncology. Further experience in cell-based cytotoxicity assays, multicolor flow cytometry or multiplex cytokine analysis is desired. You are able to lead a small lab team and have a desire to continue in a laboratory-focused role.

We expect a high degree of independent working and analytical reasoning. You have excellent communication skills, both in English and German. You are conversant with the establishment of quality assurance systems and you take careful editing and documenting of your results for granted. You embrace rapidly changing requirements with an open mind and show a high degree of flexibility in an environment which is marked by a constant striving for excellence. Your motivation is driven by your dedication to innovation and science. You approach tasks in a structured, reliable and foresighted manner, combined with a high degree of individual responsibility, enthusiasm and strong social skills.

### **Our offer:**

We are a committed and inspired team and cherish the collegial, highly motivated and family-friendly atmosphere within Immatics. Our culture allows for a high degree of originality, independent thinking and initiative.

If you're interested in working for Immatics, please apply [online](#) and provide your application documents along with the relevant credentials and certificates. Mrs Annemarie Selbenbacher will answer initial questions at +49 89 125 03 98 33 (landline number Germany). Constares GmbH (Mrs Annemarie Selbenbacher) advises Immatics on this job posting.
