

DELIVERING THE POWER OF T CELLS TO CANCER PATIENTS

Immatics is a clinical-stage biopharmaceutical company active in the discovery and development of T-cell redirecting immunotherapies for the treatment of cancer. Operating from Tuebingen, Munich and Houston, the Company has recognized that novel, better and safer targets are the key to developing future cancer immunotherapies and it is Immatics' mission to deliver the power of T cells to cancer patients. For more detailed information, visit www.immatics.com.

We are currently seeking an

Associate Director Immunology (all genders welcome)

to support our team in the development of innovative immunotherapeutic products. You will work in Tübingen (Germany) in an interdisciplinary environment with colleagues from all research as well as business development and intellectual property departments. Your analytical reasoning and action-oriented style as well as your organization and communication skills will contribute to the team's success. This is a permanent position.

Your main responsibilities will include but are not limited to the following tasks:

- Planning, supervision, documentation and reporting of clinical Immunomonitoring using a wide range of standardized cellular, immunological and molecular techniques
- Method development in the context of clinical Immunomonitoring
- Professional leadership and management of lab personnel
- Development and management of assigned projects
- Contribution to writing clinical trial associated documents with a focus on immunological and Immunomonitoring associated aspects (e.g. CSP, CSR, SAP etc.)
- Support of Quality Management including writing and reviewing of Standard Operating Procedures (SOPs)
- Contribution to the filing of regulatory documents
- Lead global project teams
- Budget responsibility

Your profile

You hold a PhD degree in life sciences and have relevant industry experience. You have a proven track record and 5+ years hands-on experience in experimental immunology, cellular and molecular biology in the context of clinical trials. In addition, you have in-depth understanding of cell biology and immunology, ideally in the field of cancer therapy. Experience with standardized cell-based functional assays, multicolor flow cytometry and SQL or Python is mandatory. Knowledge of Anti-Drug-Antibody Detection is an advantage. You are able to lead lab personnel with passion and have a desire to continue in a lab supervising role.

We expect a high degree of independent working and analytical reasoning and decision-making skills. You have excellent communication skills, both in English and German, and you are familiar with the requirements of commercial business and interaction with external partners. You are conversant with the establishment of quality assurance systems and you take careful editing and documenting of your results for granted. You embrace rapidly changing requirements with an open mind, think outside the box and show a high degree of flexibility in an environment which is marked by a constant striving for excellence. Your motivation is driven by your dedication to innovation and science. You approach tasks in a structured, reliable and foresighted manner, combined with an elevated level of individual responsibility, enthusiasm and strong social skills. Some travel may be required.

What we offer

We are a committed and inspired team and cherish the collegial, highly motivated and family-friendly atmosphere within Immatics. Our culture allows for a high level of originality, independent thinking and initiative. We believe in supporting our employees' professional and social skills: We enable them to join conferences and trainings as well as to enjoy our Immatics benefits – e.g. job bike, job ticket, Health Programs, childcare benefits, relocation allowance, Company summer and winter events.

If you're interested in working for Immatics, please apply [online](#) and provide your application documents along with the relevant credentials and certificates. Mrs Annemarie Selbenbacher will answer initial questions at +49 89 125 03 98 33 (landline number Germany). CoreDi Recruiting GmbH (Mrs Annemarie Selbenbacher) advises Immatics on this job posting.
