

# DELIVERING THE POWER OF T CELLS TO CANCER PATIENTS

Immatics combines the discovery of true targets for cancer immunotherapies with the development of the right T cell receptors with the goal of enabling a robust and specific T cell response against these targets. This deep know-how is the foundation for our pipeline of Adoptive Cell Therapies and TCR Bispecifics as well as our partnerships with global leaders in the pharmaceutical industry. Operating from Tuebingen, Munich and Houston, we are committed to delivering the power of T cells and to unlocking new avenues for patients in their fight against cancer. For more detailed information, visit [www.immatics.com](http://www.immatics.com).

We are currently seeking a

## Scientist Histology (all genders welcome)

to support our team in the research and development of innovative immunotherapeutic products. You will work in Tuebingen (Germany) in an interdisciplinary environment with colleagues from all research and preclinical/ clinical development departments. Your analytical reasoning and action-oriented style as well as your organization and communication skills will contribute to the team's success.

Your main responsibilities will include but are not limited to the following tasks:

- As part of the Histology team you will design, coordinate and evaluate histological analyses to assess the expression of tumor-associated antigens.
- You will deploy your scientific excellence and your professional creativity to constantly optimize and expand our portfolio of histological techniques and our target validation pipeline during the pre-clinical as well as the clinical phase of development.
- You will additionally contribute to the team's broad understanding of our targets by analyzing the scientific literature and other complementary data.
- Thorough documentation compliant with regulatory requirements and presentation of your results to internal and external stakeholders will equally be part of your responsibilities.

### Your profile

You hold a **PhD** degree in Life Sciences, Biotechnology, Medicine, Pharmacy or have been comparably educated and you have proven your scientific excellence and your ability to account for complex projects. Ideally, you have gained insights into the **histology**-based validation of therapeutic targets, by **immunohistochemistry** and/ or **in situ hybridization**. Knowledge of immunology and/ or oncology is an advantage. Your scientific competence and experience and your excellent communication skills enable you to successfully contribute to interdisciplinary projects as part of our team. You are interested in translating scientific findings into clinical applications and you take careful processing and documenting your results for granted.

We expect a high degree of independent working, analytical reasoning and excellent communication skills in English. You embrace rapidly changing requirements with an open mind, think outside the box and show a high degree of flexibility in an environment which is marked by a constant striving for excellence. Your motivation is driven by your passion for innovation and science. You approach tasks in a structured, reliable and foresighted manner, combined with an elevated level of individual responsibility, enthusiasm and strong social skills.

### What we offer

We are a committed and inspired team and cherish the collegial, highly motivated and family-friendly atmosphere within Immatics. Our culture allows for a high level of originality, independent thinking and initiative. We believe in supporting our employees' professional and social skills: We enable them to join conferences and trainings as well as to enjoy our Immatics benefits – e.g. job bike, job ticket, Health Programs, childcare benefits, relocation allowance, Company summer and winter events.

If you're interested in working for Immatics, please apply [online](#) and provide your application documents along with the relevant credentials and certificates. CoreDi Recruiting GmbH advises Immatics on this job posting; Mrs. Rebecca Schön will answer initial questions at +49 89 1241 46 204.
